

# FPA Fund Announcements

## 2019 Year-End Capital Gain Estimates Updated as of November 11, 2019

The estimated ranges for long-term capital gain distributions as of September 30, 2019 are listed below. Actual year-end distributions will be based on gains and losses realized through October 31. Estimated distribution rates on a per-share basis for dividend income and long-term capital gain will be available in December. The Funds' longer-term approach to investing means that the capital gain realized in a particular year can be the result of an investment held over an extended period of time. The amount of capital gain distributions will vary year over year since the distributions are based on net capital gain realized each year.

### Estimated Ranges for Year-End Long-Term Capital Gain Distributions (Percentage Ranges Based on September 30, 2019 Share Prices)
