Distributions may include the net income from dividends and interest earned by fund securities, net capital gains, or in certain cases it may include a return of capital. All mutual funds, including closed-end funds, periodically distribute profits they earn to investors. By law, if a fund has net gains from the sale of securities, or if it earns dividends and interest from securities, it must pass substantially all of those earnings to its shareholders or it will be subject to corporate income taxes and excise taxes. These taxes would, in effect, reduce investors' total return.

First Pacific Advisors, LP does not provide legal, accounting, or tax advice. Please contact your accounting or tax advisor and/or legal counsel to review the impact of any distributions on your situation and discuss possible tax strategies.
