BDC – Business Development Company IO – Interest Only LLC – Limited Liability Company LP – Limited Partnership US – United States

^{*}Non-income producing security.

(a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities are restricted and may be resold in transactions exempt from registration normally to qualified institutional buyers. The total value of these securities is \$2,739,320,038, which represents 30.82% of Net Assets.

(b) Variable or floating rate security.

(c) The value of these securities was determined using significant unobservable inputs. These are reported as Level 3 securities in the Fair Value Hierarchy.

(d) Restricted securities. These restricted securities constituted 2.81% of total net assets at March 31, 2025, most of which are considered liquid by the Adviser. These securities are not registered and may not be sold to the public. There are legal and/or contractual restrictions on resale. The Fund does not have the right to demand that such securities be registered. The values of these securities are determined by valuations provided by pricing services, brokers, dealers, market makers, or in good faith under policies adopted by authority of the Fund's Board of Trustees

(e) Bank loans generally pay interest at rates which are periodically determined by reference to a base lending rate plus a premium. All loans carry a variable rate of interest. These base lending rates are generally (i) the Prime Rate offered by one or more major United States banks, (ii) the lending rate offered by one or more European banks such as the London Interbank Offered Rate ("LIBOR"), (iii) the Certificate of Deposit rate, or (iv) Secured Overnight Financing Rate ("SOFR"). Bank Loans, while exempt from registration, under the Securities Act of 1933, contain certain restrictions on resale and cannot be sold publicly. Floating rate bank loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy.

(g) As of March 31, 2025, the Fund had entered into commitments to fund various delayed draw debt-related investments. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing those investments and there can be no assurance that such conditions will be satisfied. See Note 8 of the Notes to Financial Statements for further information on these commitments and contingencies.

(h)Payment-in-kind interest is generally paid by issuing additional par/shares of the security rather than paying cash.

(i) All or a portion of the loan is unfunded.

(j) Affiliated company.

(k) The rate is the annualized seven-day yield at period end.

(I)Treasury bill discount rate.

Note 1 - Organization

FPA New Income Fund (the "Fund") is a diversified series of Investment Managers Series Trust III, (formerly, FPA Funds Trust), (the "Trust"), which is registered as an open-end management company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's primary investment objective is to seek current income and long-term total return taking into consideration capital preservation. First Pacific Advisors, LP (the "Adviser") has served as the Fund's investment adviser since July 11, 1984.

On July 28, 2023, the Fund acquired the assets and assumed the liabilities of FPA New Income, Inc. (the "Predecessor Fund") in a tax-free reorganization pursuant to the Agreement and Plan of Reorganization (the "Plan of Reorganization"). The Plan of Reorganization was approved by the Trust's Board and by the Predecessor Fund's Board on May 8, 2023. The tax-free reorganization was accomplished on July 28, 2023. As a result of the reorganization, the Fund assumed the performance and accounting history of the Predecessor Fund. Financial information included for the dates prior to the reorganization is that of the Predecessor Fund.

The reorganization was accomplished by the following tax-free exchange in which each shareholder of the Fund received the same aggregate share net asset value as noted below:

Shares Issued	Net Assets
830,265,591	\$7,897,367,462

The net unrealized depreciation of investments transferred was \$299,644,964 as of the date of the acquisition.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services—Investment Companies".

The Fund is deemed to be an individual reporting segment and is not part of a consolidated reporting entity. The objective and strategy of the Fund is used by the Adviser to make investment decisions, and the results of the operations, as shown on the Statements of Operations and the financial highlights for the Fund is the information utilized for the day-to-day management of the Fund. The Fund is party to the expense agreements as disclosed in the Notes to the Financial Statements and there are no resources allocated to a Fund based on performance measurements. The Adviser is deemed to be the Chief Operating Decision Maker with respect to the Fund's investment decisions.

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in open-end investment companies are valued

at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Adviser as the Fund's valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Adviser has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing. Securities for which representative market quotations are not readily available or are considered unreliable by the Adviser are valued as determined in good faith under procedures adopted by the authority of the Fund's Board of Directors. Various inputs may be reviewed in order to make a good faith determination of a security's value. These inputs include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. Fair valuations and valuations of investments that are not actively trading involve judgment and may differ materially from valuations of investments that would have been used had greater market activity occurred.

(b) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the exdividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Premiums for callable debt securities are amortized to the earliest call date, if the call price was less than the purchase price. If the call price was not at par and the security was not called, the security is amortized to the next call price and date. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares relative net assets. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made.

(c) Mortgage-Backed Securities

The Fund may invest in mortgage-backed securities ("MBS"), representing direct or indirect interests in pools of underlying residential or commercial mortgage loans that are secured by real property. These securities provide investors with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid.

The timely payment of principal and interest (but not the market value) on MBS issued or guaranteed by Ginnie Mae (formally known as the Government National Mortgage Association or GNMA) is backed by Ginnie Mae and the full faith and credit of the US government. Obligations issued by Fannie Mae (formally known as the Federal National Mortgage Association or FNMA) and Freddie Mac (formally known as the Federal Home Loan Mortgage Corporation

or FHLMC) are historically supported only by the credit of the issuer, but currently are guaranteed by the US government in connection with such agencies being placed temporarily into conservatorship by the US government. Some MBS are sponsored or issued by private entities. Payments of principal and interest (but not the market value) of such private MBS may be supported by pools of residential or commercial mortgage loans or other MBS that are guaranteed, directly or indirectly, by the US government or one of its agencies or instrumentalities, or they may be issued without any government guarantee of the underlying mortgage assets but may contain some form of non-government credit enhancement.

Collateralized mortgage obligations ("CMO") are a type of MBS. A CMO is a debt security that may be collateralized by whole mortgage loans or mortgage pass-through securities. The mortgage loans or mortgage pass-through securities are divided into classes or tranches with each class having its own characteristics. Investors typically receive payments out of the interest and principal on the underlying mortgages. The portions of these payments that investors receive, as well as the priority of their rights to receive payments, are determined by the specific terms of the CMO class.

The yield characteristics of MBS differ from those of traditional debt securities. Among the major differences are that interest and principal payments are made more frequently, usually monthly, and that principal may be prepaid at any time because the underlying mortgage loans or other obligations generally may be prepaid at any time. Prepayments on a pool of mortgage loans are influenced by a variety of economic, geographic, social and other factors. Generally, prepayments on fixed-rate mortgage loans will increase during a period of falling interest rates and decrease during a period of rising interest rates. Certain classes of CMOs and other MBS are structured in a manner that makes them extremely sensitive to changes in prepayment rates.

(d) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their net investment income and any net realized gains to their shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

The Income Tax Statement requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of March 31, 2025 and during the prior three open tax years, the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examinations in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Distributions to Shareholders

The Fund will make distributions of net investment income monthly and net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(f) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Fund limits its illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Adviser, at any time determines that the value of illiquid securities held by the Fund exceeds 15% of its net asset value, the Adviser will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Fund's written LRMP.

(g) Use of Estimates

The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

(h) Stripped Mortgage-Backed Interest Only ("I/O") and Principal Only ("P/O") Securities

Stripped mortgage-backed securities are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. In certain cases, one class will receive all of the interest payments on the underlying mortgages (the I/O class), while the other class will receive all of the principal payments (the P/O class). The Fund currently has investments in I/O securities. The yield to maturity on I/Os is sensitive to the rate of principal repayments (including prepayments) on the related underlying mortgage assets, and principal payments may have a material effect on yield-to-maturity. If the underlying mortgage assets experience greater than anticipated prepayments of principal, a Fund may not fully recoup its initial investment in I/Os.

(i) Credit Risk

Debt securities are subject to credit risk, meaning that the issuer of the debt security may default or fail to make timely payments of principal or interest. The values of any of the Fund's investments may also decline in response to events affecting the issuer or its credit rating. The lower rated debt securities in which the Fund may invest are considered speculative and are generally subject to greater volatility and risk of loss than investment grade securities, particularly in deteriorating economic conditions. The Fund invests a significant portion of its assets in securities of issuers that hold mortgage-and asset-backed securities and direct investments in securities backed by commercial and residential mortgage loans and other financial assets. The value and related income of these securities is sensitive to changes in economic conditions, including delinquencies and/or defaults. Continuing shifts in the market's perception of credit quality on securities backed by commercial and residential mortgage loans and other financial assets may result in increased volatility of market price and periods of illiquidity that can negatively impact the valuation of certain securities held by the Fund.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the "Agreement") with the Adviser. Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Adviser at the annual rate of 0.50% of the Fund's average daily net assets. In addition, the Adviser has voluntarily agreed to waive the advisory fee it receives from the Fund by 0.046% through January 31, 2026 of the Fund's average daily net assets. The Adviser will not seek recoupment of the advisory fees voluntarily waived.

The Adviser has contractually agreed to reimburse the Fund for Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage fees and commissions payable by the Fund in connection with the purchase or sale of portfolio securities, and extraordinary expenses, including litigation expenses not incurred in the Fund's ordinary course of business) in excess of 0.454% of the average daily net assets of the Institutional Class shares of the Fund through January 31, 2026, and in excess of 0.554% of the average daily net assets of the Investor Class shares of the Fund through January 31, 2026. This agreement may only be terminated earlier by the Fund's Board of Trustees (the "Board") or upon termination of the Agreement. For the six-months ended March 31, 2025, the Adviser waived a portion of its advisory fees totaling \$5,090,485.

UMBFS serves as the Fund's fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Fund's other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Fund's custodian. The Fund's allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six-months ended March 31, 2025, are reported as "Fund services fees" on the Statement of Operations.

Distribution Services, LLC, serves as the Fund's distributor (the "Distributor"). Prior to December 6, 2024, UMB Distribution Services, LLC ("UMB Distribution Services"), a wholly owned subsidiary of UMBFS, served as the Fund's distributor. The Distributor does not receive compensation from the Fund for its distribution services. The Adviser pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS, MFAC or the Adviser. The Fund does not compensate trustees and officers affiliated with the Fund's co-administrators or the Adviser. For the six-months ended March 31, 2025, the Fund's allocated fees incurred to Trustees of the Trust who are not "interested persons" of the Trust, as that term is defined in the 1940 Act (collectively, the "Independent Trustees") are reported on the Statement of Operations.

The Fund's Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to defer some or all of their fees. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. A Trustee's deferred fees are deemed to be invested in designated mutual funds available under the Plan. The Fund's liability for these amounts is adjusted for market value changes in the invested fund and remains a liability to the Fund until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Fund and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Fund's allocated fees incurred for CCO services for the six-months ended March 31, 2025, are reported on the Statement of Operations.

Note 4 – Federal Income Taxes

At March 31, 2025, gross unrealized appreciation/(depreciation) of investments, based on cost for federal income tax purposes were as follows:

Cost of investments	\$ 8,743,199,167
Gross unrealized appreciation	\$ 207,753,118
Gross unrealized depreciation	(80,717,084)
Net unrealized appreciation/(depreciation)	\$ 127,036,034

Note 5 - Investment Transactions

For the period ended March 31, 2025, purchases and sales of investments, excluding short-term investments, were \$2,174,359,266 and \$1,803,353,963, respectively.

Note 6 - Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 7 – Shareholder Servicing Plan

Pursuant to the Shareholder Service Plan adopted by the Board, on behalf of the Fund, the Fund may pay a fee at an annual rate of up to 0.10% and 0.25% of its average daily net assets attributable to the Institutional Class and Investor Class shares of the Fund, respectively. The Fund does not pay these service fees on shares purchased directly. In addition, the Adviser may, at its own expense, pay financial representatives and/or shareholder servicing agents for these services. Such fees are reported on the Statement of Operations.

Note 8 - Commitments and Contingencies

The Fund may enter into unfunded loan commitments. Unfunded loan commitments may be partially or wholly unfunded. During the contractual period, the Fund is obliged to provide funding to the borrower upon demand. Unfunded loan commitments are fair valued in accordance with the valuation policy described in Note 2(a) and unrealized appreciation or depreciation, if any, is recorded on the Statement of Assets and Liabilities. As of March 31, 2025, the total unfunded amount was 0.12% of the Fund's net assets.

As of March 31, 2025, the Fund had the following unfunded loan commitments outstanding:

				Unrealized Appreciation/	Unfunded
Loan	Principal	Cost	Value	(Depreciation)	Commitment
Lealand Finance Super Senior Exit LC	\$10,625,126	\$(16,660)	\$(2,337,528)	\$(2,320,868)	\$10,625,126

Note 9 - Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on

determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of March 31, 2025, in valuing the Fund's assets carried at fair value:

⁽¹⁾ This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 10 - Investments in Affiliated Issuers

An affiliated issuer is an entity in which the Fund has ownership of a least 5% of the voting securities. Issuers that are affiliates of the Fund at period-end are noted in the Fund's Schedule of Investments. Additional security purchases and the reduction of certain securities shares outstanding of existing portfolio holdings that were not considered affiliated in prior years may result in the Fund owning in excess of 5% of the outstanding shares at period-end. The table below reflects transactions during the period with entities that are affiliates as of September 30, 2024 and may include acquisitions of new investments, prior year holdings that became affiliated during the period and prior period affiliated holdings that are no longer affiliated as of period-end:

⁽²⁾ The Pricing Model technique for Level 3 securities is based on the recent purchase price of the security, until independent vendor pricing is

⁽³⁾The Third Party Broker Quote technique involves obtaining an independent third-party broker quote for the security.

⁽⁴⁾ The Pricing Model technique for Level 3 securities involves the last reported trade in the security.

⁽⁵⁾ The Pricing Model technique for Level 3 securities involves the terms of a completed third-party acquisition of the company. If the financial condition of the underlying assets were to deteriorate, or if the market comparables were to fall, the value of the investment could be lower.

⁽⁶⁾ The Pricing Model technique for Level 3 securities involves evaluation of the residual value of a term loan that is pending any final liquidation distributions from the bankruptcy trustee.

⁽⁷⁾The Pricing Model technique for Level 3 securities involves recently quoted funding prices of the security.

⁽⁸⁾ The fair value of the investment is based on the initial purchase price or more recent capital activity. If the financial condition of the underlying assets were to deteriorate, or if the market comparables were to fall, the value of the investment could be lower.

Note 11 – Restricted Securities

Restricted securities include securities that have not been registered under the Securities Act of 1933, as amended, and securities that are subject to restrictions on resale. The Fund may invest in restricted securities that are consistent with the Fund's investment objective and investment strategies. Investments in restricted securities are valued at net asset value as a practical expedient for fair value, or fair value as determined in good faith in accordance with procedures adopted by the Board. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material.

As of March 31, 2025, the Fund invested in the following restricted securities:

Note 12 - Market Disruption and Geopolitical Risks

Certain local, regional, or global events such as war, acts of terrorism, the spread of infectious illness and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and others like them are collectively referred to as "Market Disruptions and Geopolitical Risks" and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, tariffs, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 13 – New Accounting Pronouncements

Effective January 24, 2023, the Securities and Exchange Commission (the "SEC") adopted rule and form amendments to require mutual funds and exchange-traded funds ("ETFs") to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Certain information, including financial statements, will no longer appear in the Fund's streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. The Fund has adopted procedures in accordance with the SEC's rules and form amendments.

In November 2023, the FASB issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07")," which enhances disclosure requirements about significant segment expenses that are regularly provided to the chief operating decision maker (the "CODM"). ASU 2023-07, among other things, (i) requires a single segment public entity to provide all of the disclosures as required by Topic 280, (ii) requires a public entity to disclose the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources and (iii) provides the ability for a public entity to elect more than one performance measure. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Management has evaluated the impact of applying ASU 2023-07, and the Fund has adopted the ASU during the reporting period. The adoption of the ASU does not have a material impact on the financial statements. Required disclosure is included in Note 1.

Note 14 – Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements.

There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.
