FUND SUMMARY

INVESTMENT OBJECTIVE

The Fund seeks long-term capital growth.

FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Shareholder Fees <i>(fees paid directly from your investment)</i>	Investor Class	Advisor Class	Institutional Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of original sales price or redemption proceeds, as applicable)	None	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>			
Management fees	0.66%	0.66%	0.66%
Distribution (Rule 12b-1) fees	None	None	None
Other Expenses	0.26%	0.20%	0.12%
Shareholder service fee	0.21%	0.15%	0.07%
All other expenses	0.05%	0.05%	0.05%
Acquired fund fees and expenses ¹	0.02%	0.02%	0.02%
Total Annual Fund Operating Expenses	0.94%	0.88%	0.80%

- 1 The total annual fund operating expenses do not correlate to the ratio of expenses to average net assets appearing in the financial highlights table, which reflects only the operating expenses of the Fund and does not include acquired fund fees and expenses.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the operating expenses of the

Fund remain same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Investor Class	\$96	\$300	\$520	\$1,155
Advisor Class	\$90	\$281	\$488	\$1,084
Institutional Class	\$82	\$255	\$444	\$ 990

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover was 15% of the average value of its portfolio. The Fund’s portfolio turnover rate may vary from year to year as well as within a year.

PRINCIPAL INVESTMENT STRATEGIES

The Fund seeks to achieve its investment objective by investing primarily in the equity securities (common stocks, preferred stocks and convertible securities) of small capitalization U.S. companies. Under normal circumstances, the Fund will invest at least 80% of its assets (for the purpose of this requirement, net assets include net assets plus any borrowings for investment purposes) in equity securities of companies with small market capitalization. The Fund currently defines a small capitalization (small cap) company as one whose market capitalization, at the time of purchase, is no greater than the largest market capitalization of any company included in the Russell 2000 Index.

The Fund’s sub-adviser, Bragg Financial Advisors, Inc., invests the Fund’s assets by pursuing a value-oriented strategy. The sub-adviser’s strategy begins with a screening process that seeks to identify small cap companies whose stocks sell at discounted price-to-earnings (P/E) and price-to-cash flow (P/CF) multiples. The sub-adviser favors companies that maintain strong balance sheets and have experienced management. Generally, the sub-adviser attempts to identify situations where stock prices are undervalued by the market. The sub-adviser generally sells securities when it believes they are trading for more than their intrinsic value, to generate tax losses to offset taxable gains, or if additional cash is needed to fund redemptions.

PRINCIPAL RISKS

Risk is inherent in all investing and you could lose money by investing in the Fund. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

Risks Associated with Investing in Equities. Equity securities, generally common stocks, held by the Fund may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect the securities markets generally, such as adverse

changes in economic or political conditions, the general outlook for corporate earnings, interest rates or investor sentiment. Sustained periods of market volatility, either globally or in any jurisdiction in which the Fund invests, may increase the risks associated with an investment in the Fund. Equity securities may also lose value because of factors affecting an entire industry or sector, such as increases in production costs, or factors directly related to a specific company, such as decisions made by its management. Equity securities generally have greater price volatility than debt securities.

Stock Market Volatility. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments.

Small Cap Securities. The prices of securities of small capitalization companies generally are more volatile, less liquid, and more likely to be adversely affected by poor economic or market conditions than securities of larger companies. Small companies may have limited product lines, markets or financial resources, and they may be dependent upon a limited management group.

Risks Associated with Value Investing. Value securities, including those selected by the portfolio manager for the Fund, are subject to the risks that their intrinsic value may never be realized by the market and that their prices may go down. In addition, value style investing may fall out of favor and underperform growth or other styles of investing during given periods. The Fund's value discipline may result in a portfolio of stocks that differs materially from its illustrative index.

Issuer-Specific Changes. The value of an individual security can be more volatile than the market as a whole and can perform differently than the value of the market as a whole.

Management Risk. The Fund is subject to management risk as an actively managed investment portfolio. The sub-adviser's skill in choosing appropriate investments for the Fund will determine, in part, the Fund's ability to achieve its investment objective. The portfolio manager will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results. The portfolio manager's opinion about the intrinsic worth or creditworthiness of a company or security may be incorrect, the portfolio manager may not make timely purchases or sales of securities for the Fund, the Fund's investment objective may not be achieved, or the market may continue to undervalue the Fund's securities. In addition, the Fund may not be able to quickly dispose of certain securities holdings. The frequency of trading within the Fund impacts portfolio turnover rates, which are shown in the financial highlights table. A higher rate of portfolio turnover could produce higher trading costs and taxable distributions, which would detract from the Fund's performance. Moreover, there can be no assurance that all of the sub-adviser's personnel will continue to be associated with the sub-adviser for any length of time. The loss of services of one or more key employees of the sub-adviser, including the Fund's portfolio manager, could have an adverse impact on the Fund's ability to achieve its investment objective. Certain securities or other instruments in which the Fund seeks to invest may not be available in the quantities desired. In such circumstances, the portfolio manager may determine to purchase other securities or instruments as substitutes. Such substitute securities or instruments may not perform as intended, which could result in losses to the Fund.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular

company, such as real or perceived adverse economic, political, or geopolitical conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as tariffs, labor shortages or increased production costs and competitive conditions within an industry. In addition, local, regional or global events such as war, acts of terrorism, international conflicts, trade disputes, supply chain disruptions, cybersecurity events, the spread of infectious illness or other public health issues, natural disasters or climate events, or other events could have a significant impact on a security or instrument. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market.

Large Investor Risk. Ownership of shares of the Fund may be concentrated in one or a few large investors. Such investors may redeem shares in large quantities or on a frequent basis. Redemptions by a large investor may affect the performance of the Fund, may increase realized capital gains, may accelerate the realization of taxable income to shareholders and may increase transaction costs. These transactions potentially limit the use of any capital loss carryforwards and certain other losses to offset future realized capital gains (if any). Such transactions may also increase the Fund's expenses. In addition, the Fund may be delayed in investing new cash after a large shareholder purchase, and under such circumstances may be required to maintain a larger cash position than it ordinarily would.

Recent Market Events. Periods of market volatility may occur in response to market events, public health emergencies, natural disasters or climate events, and other economic, political, and global macro factors. For example, in recent years the large expansion of government deficits and debt as a result of government actions to mitigate the effects of the COVID-19 pandemic and inflation have resulted in extreme volatility in the global economy and in global financial markets. In addition, military conflicts and wars have caused or could continue to cause market disruptions in the regions and globally. Additionally, since the change in the U.S. presidential administration in 2025, the administration has pursued an aggressive foreign policy agenda, including actual or potential imposition of tariffs, which may have consequences on the United States' relations with foreign countries, the economy, and markets generally. These and other similar events could be prolonged and could adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, the sub-adviser and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder's ability to exchange or redeem Fund shares may be affected. Issuers of securities in which the Fund invests are also subject to cybersecurity risks, and the value of those securities could decline if the issuers experience cybersecurity incidents.

Who May Want to Invest in the Fund?

The FPA Queens Road Small Cap Value Fund is designed for investors who:

- seek an aggressive stock fund with the long-term goal of growth of capital
- seek a fund to complement a portfolio of more conservative investments
- are willing to accept significant changes (up or down) in the value of an investment

The Fund is NOT appropriate for investors who:

- want to avoid high volatility or possible losses
- want an investment that pursues market trends or focuses on particular sectors or industries
- are pursuing a short term goal or investing emergency reserve money
- are seeking regular income or preservation of capital.

PERFORMANCE

The Fund is the successor of the FPA Queens Road Small Cap Value Fund, formerly a series of Bragg Capital Trust (the “Predecessor Fund”). The Fund acquired all of the assets and liabilities of the Predecessor Fund following the reorganization of the Predecessor Fund on July 28, 2023. As a result of the acquisition, the Fund is the accounting successor of the Predecessor Fund. Performance results shown in the bar chart and the performance table below for periods prior to July 28, 2023, reflect the performance of the Predecessor Fund.

The bar chart and Average Annual Total Returns table below provide an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for the 1, 5 and 10 calendar year periods compare with those of the Russell 3000 Index, a broad-based market index, and the Russell 2000 Value Index, an additional index that provides a measure of the U.S. small cap value equity market. The past performance information shown below is for Investor Class shares of the Fund. Although Investor Class shares would have similar annual returns to the Fund’s other share classes (*i.e.*, Advisor Class and Institutional Class shares) because all of the classes are invested in the same portfolio of securities, the returns for each class of shares will vary because of the different expenses paid by each class of shares, as described in the table labeled “Fees and Expenses of the Fund” above. The chart and table reflect the reinvestment of dividends and distributions. In addition, the Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

To obtain updated monthly performance information, please visit the Fund’s website at <https://fpa.com/funds> or call (800) 982-4372.

Calendar-Year Total Return (before taxes) for Investor Class

For each calendar year at NAV

1 After-tax returns are shown only for Investor Class shares; after-tax returns for other share classes will vary. After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on a shareholder's tax situation and may differ from those shown. The after-tax returns are not relevant if you hold your Fund shares in tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRA").

2 Advisor Class and Institutional Class shares commenced operations on December 1, 2020.

INVESTMENT ADVISER

First Pacific Advisors, LP ("FPA" or the "Adviser") is the Fund's investment adviser.

SUB-ADVISER

Bragg Financial Advisors, Inc. is the Fund's investment sub-adviser.

PORTFOLIO MANAGER

Steve Scruggs, CFA, Senior Portfolio Manager of the sub-adviser, has served the Fund as portfolio manager since its inception in July 2023, and as portfolio manager for the Predecessor Fund since June 2002.

PURCHASE AND SALE OF FUND SHARES

Investors may purchase or redeem shares on any business day by written request, check, wire, ACH (Automated Clearing House), telephone, or through dealers as further described in this prospectus. You may conduct transactions by mail (FPA Funds, c/o UMB Fund Services, Inc., P.O. Box 2175, Milwaukee, Wisconsin 53201-2175, or 235 West Galena Street, Milwaukee, Wisconsin 53212), by wire, or by telephone at (800) 638-3060. Purchases and redemptions by telephone are only permitted if you previously established this option in your account. Investors can use the Account Application for initial purchases.

Investors can purchase shares by contacting any investment dealer authorized to sell the Fund's shares. The minimum initial investment is \$1,500, \$1,500, and \$100,000 for the Investor Class, Advisor Class, and Institutional Class shares, respectively, and each subsequent investment, which can be made directly to UMB Fund Services, Inc., must be at least \$100. However, as described herein, no minimum investment amount is imposed for investments in retirement plans. All purchases made by check should be in U.S. dollars and made payable to the FPA Funds. Third party, starter or counter checks will not be accepted. A charge may be imposed if a check does not clear. The Fund reserves the right to waive or lower purchase and investment minimums in certain circumstances. For example, the minimums listed above may be waived or lowered for investors who are Trustees or officers of the Fund, employees of the Adviser and/or customers of certain financial intermediaries that hold the Fund's shares in certain omnibus accounts, and investments in the Fund by ReFlow in connection with the ReFlow liquidity program (described in additional detail below under "Management of the Fund"), at the discretion of the officers of the Fund. In addition, financial intermediaries may impose their own minimum investment and subsequent purchase amounts.

Subsequent investments and redemptions can be made directly to UMB Fund Services, Inc.

Notice to Non-U.S. Resident Individual Shareholders. The Fund and its shares are only registered in the United States and its territories ("United States"). Regulations outside of the United States may restrict the sale of shares to certain non-U.S. residents or subject certain shareholder accounts to additional regulatory requirements. As a result, individuals resident outside the United States are generally not eligible to invest in the Fund. The Fund reserves the right, however, to sell shares to certain other non-U.S. investors in compliance with applicable law. If a current shareholder of the Fund provides a non-U.S. address, this will be deemed a representation and warranty from such investor that he/she is not a U.S. resident and will continue to be a non-U.S. resident unless and until the Fund is notified of a change in the investor's resident status. Any current shareholder that has a resident address outside of the United States may be restricted from purchasing additional shares.

TAX INFORMATION

The Fund's distributions are taxable and will be taxed as ordinary income and/or long-term capital gain, unless you are investing through a tax-deferred arrangement, such as an IRA or 401(k) plan.

INFORMATION REGARDING TRANSACTIONS THROUGH FINANCIAL INTERMEDIARIES

Shareholders may be required to pay a commission directly to their broker or other financial intermediary when buying or selling shares of the Fund. Shareholders and potential investors may wish to contact their broker or other financial intermediary for information regarding applicable commissions, transaction fees or other charges associated with transactions in shares of the Fund.

In addition, brokers, dealers, banks, trust companies and other financial representatives may receive compensation from the Fund or its service providers for providing a variety of services, which may include recordkeeping, transaction processing for shareholders' accounts and certain shareholder services not currently offered to shareholders that deal directly with the Fund. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund's objective is long-term capital growth. The Fund's investment objective is fundamental and may not be changed without shareholder approval. However, the Fund's investment policy to invest at least 80% of its net assets in equity securities of small cap companies is non-fundamental and may be changed by the Fund's Board of Trustees (the "Board") upon 60 days written notice to shareholders.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by investing primarily in the equity securities (common stocks, preferred stocks and convertible securities) of small capitalization U.S. companies. Under normal circumstances, the Fund will invest at least 80% of its assets (for the purpose of this requirement, net assets include net assets plus any borrowings for investment purposes) in equity securities of companies with small market capitalization. The Fund defines a small capitalization (small cap) company as one whose market capitalization, at the time of purchase, is no greater than the largest market capitalization of any company included in the Russell 2000 Index.

The Fund's sub-adviser, Bragg Financial Advisors, Inc., invests the Fund's assets by pursuing a value-oriented strategy. The sub-adviser's strategy begins with a screening process that seeks to identify small cap companies whose stocks sell at discounted price-to-earnings (P/E) and price-to-cash flow (P/CF) multiples. The sub-adviser favors companies that maintain strong balance sheets and have experienced management. Generally, the sub-adviser attempts to identify situations where stock prices are undervalued by the market. The sub-adviser sells securities when it believes they are trading for more than their intrinsic value, to generate tax losses to offset taxable gains, or if additional cash is needed to fund redemptions.

Non-Principal Investment Strategies

The Fund reserves the right to invest in other securities, as further detailed in the Fund's Statement of Additional Information.

ADDITIONAL INFORMATION ABOUT THE PRINCIPAL RISKS

The risk descriptions below provide a more detailed explanation of the Fund's common principal investment risks (except as noted) that correspond to the risks described in the Fund's Fund Summary section of this Prospectus.

Risks Associated with Investing in Equities. Equity securities, generally common stocks, held by the Fund may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect the securities markets generally, such as adverse changes in economic or political conditions, the general outlook for corporate earnings, interest rates or investor sentiment. Sustained periods of market volatility may increase the risks associated

with an investment in the Fund. Equity securities may also lose value because of factors affecting an entire industry or sector, such as increases in production costs or factors directly related to a specific company, such as decisions made by its management.

Common stock of an issuer in the Fund's portfolio may decline in price if the issuer fails to make anticipated dividend payments because, among other reasons, the issuer of the security experiences a decline in its financial condition. Common stock is subordinated to preferred stocks, bonds, and other debt instruments in a company's capital structure, in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns. Because preferred stock is generally junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics.

Stock Market Volatility. While stocks have historically outperformed other asset classes over the long term, stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. Different parts of the market can react differently to these developments.

Small Cap Securities. Investing in the securities of small capitalization companies involves special risks. Among other things, the prices of securities of these companies generally are more volatile than those of larger companies; the securities of small capitalization companies generally are less liquid; and smaller companies generally are more likely to be adversely affected by poor economic or market conditions. In addition, it is anticipated that some of the Fund's portfolio securities may not be widely traded, and that the Fund's position in such securities may be substantial in relation to the market for such securities. Accordingly, it may be difficult for the Fund to dispose of such securities quickly at prevailing market prices. Investments in securities of companies with small market capitalizations are generally considered to offer greater opportunity for appreciation but also may involve greater risks than customarily are associated with more established companies. The securities of smaller capitalization companies may be subject to more abrupt fluctuations in market price than larger, more established companies. Small capitalization companies have limited product lines, markets or financial resources, or they may be dependent upon a limited management group. In addition to exhibiting greater volatility, small cap stocks may, to a degree, fluctuate independently of larger cap stocks, *i.e.*, small cap stocks may decline in price as the prices of large cap stocks rise or vice versa.

Risks Associated with Value Investing. Value securities, including those selected by the portfolio manager for the Fund, are subject to the risks that their intrinsic value may never be realized by the market and that their prices may go down. In addition, value style investing may fall out of favor and underperform growth or other styles of investing during given periods. The Fund's value discipline may result in a portfolio of stocks that differs materially from its illustrative index.

Securities selected by the portfolio manager using a value strategy may never reach their intrinsic value because the market fails to recognize what the portfolio manager considers to be the true

business value or because the portfolio manager has misjudged those values. There may be periods during which the investment performance of the Fund suffers while using a value strategy.

Issuer-Specific Changes. The value of an individual security can be more volatile than the market as a whole and can perform differently than the value of the market as a whole.

Management Risk. The Fund is subject to management risk as an actively managed investment portfolio. The sub-adviser's skill in choosing appropriate investments for the Fund will determine in part the Fund's ability to achieve its investment objective. The portfolio manager will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results. The portfolio manager's opinion about the intrinsic worth or creditworthiness of a company or security may be incorrect, the portfolio manager may not make timely purchases or sales of securities for the Fund, the Fund's investment objective may not be achieved, or the market may continue to undervalue the Fund's securities. In addition, the Fund may not be able to quickly dispose of certain securities holdings. The frequency of trading within the Fund impacts portfolio turnover rates, which are shown in the financial highlights table. A higher rate of portfolio turnover could produce higher trading costs and taxable distributions, which would detract from the Fund's performance. Moreover, there can be no assurance that all of the sub-adviser's personnel will continue to be associated with the sub-adviser for any length of time. The loss of services of one or more key employees of the sub-adviser, including the portfolio manager, could have an adverse impact on the Fund's ability to achieve its investment objective. Certain securities or other instruments in which the Fund seeks to invest may not be available in the quantities desired. In such circumstances, the portfolio manager may determine to purchase other securities or instruments as substitutes. Such substitute securities or instruments may not perform as intended, which could result in losses to the Fund.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic, political, or geopolitical conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as tariffs, labor shortages or increased production costs and competitive conditions within an industry. In addition, local, regional or global events such as war, acts of terrorism, international conflicts, trade disputes, supply chain disruptions, cybersecurity events, the spread of infectious illness or other public health issues, natural disasters or climate events, or other events could have a significant impact on a security or instrument. Such events could make identifying investment risks and opportunities especially difficult for the Adviser. In response to certain crises, the United States and other governments have taken steps to support financial markets. The withdrawal of this support or failure of efforts in response to a crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market.

Large Investor Risk. Ownership of shares of the Fund may be concentrated in one or a few large investors. Such investors may redeem shares in large quantities or on a frequent basis. Redemptions by a large investor may affect the performance of the Fund, may increase realized capital gains, may accelerate the realization of taxable income to shareholders and may increase transaction costs. These transactions potentially limit the use of any capital loss carryforwards and certain other losses to offset future realized capital gains (if any). Such transactions may also increase the Fund's expenses. In addition, the Fund may be delayed in investing new cash after a large shareholder purchase, and under such circumstances may be required to maintain a larger cash position than it ordinarily would.

Recent Market Events. Periods of market volatility may occur in response to market events, public health emergencies, natural disasters or climate events, and other economic, political, and global macro factors. For example, in recent years the large expansion of government deficits and debt as a result of government actions to mitigate the effects of the COVID-19 pandemic and inflation have resulted in extreme volatility in the global economy and in global financial markets. In addition, military conflicts and wars have caused and could continue to cause market disruptions in the regions and globally. Additionally, since the change in the U.S. presidential administration in 2025, the administration has pursued an aggressive foreign policy agenda, including through suggestions that the United States should control sovereign foreign territories, attempts to restructure federal government agencies with international influence, and the actual or potential imposition of tariffs on foreign countries, including China and long-time U.S. allies. In particular, the imposition of tariffs has led to retaliatory tariffs by certain foreign countries and could lead to retaliatory tariffs imposed by additional foreign countries, as well as increased and prolonged market volatility, and sector-specific downturns in industries reliant on international trade.

The U.S. government and the Federal Reserve, as well as certain foreign governments and central banks, took extraordinary actions to support local and global economies and the financial markets in response to the COVID-19 pandemic. This and other government intervention into the economy and financial markets may not work as intended, and have resulted in a large expansion of government deficits and debt, the long-term consequences of which are not known. In addition, raising the ceiling on U.S. government debt and passing periodic legislation to fund the government have become increasingly politicized. Any failure to do either could lead to a default on U.S. government obligations, with unpredictable consequences for economies and markets in the United States and elsewhere.

In September 2024, the Federal Reserve lowered interest rates for the first time since 2020. Changing interest rate environments (whether downward or upward) impact various sectors of the economy and asset classes in different ways. For example, low interest rate environments tend to be positive for the equity markets, whereas high interest rate environments tend to apply downward pressure on earnings and equity prices.

The events and circumstances described above could be prolonged and could adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance. Other market events may cause similar disruptions and effects.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. A cybersecurity incident may disrupt the processing of shareholder transactions, impact the Fund's ability to calculate its net asset value, and prevent shareholders from redeeming their shares. Issuers of securities in which the Fund invests are also subject to cybersecurity risks, and the value of those securities could decline if the issuers experience cybersecurity incidents.

Temporary Investments

To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in cash, high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Percentage Investment Limitations

Unless otherwise stated, all percentage limitations on Fund investments listed in this prospectus will apply at the time of purchase. The Fund would not violate these limitations unless an excess or deficiency occurs or exists immediately after and as a result of an investment.

PORTFOLIO HOLDINGS DISCLOSURE

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information. For instructions on how to obtain an SAI, please refer to the back cover of this prospectus.

MANAGEMENT OF THE FUND

Investment Adviser

First Pacific Advisors, LP is the Fund's investment adviser. Together with its predecessor organizations, the Adviser has been in the investment advisory business since 1954, and has served as the Fund's investment adviser since November 1, 2020. As of June 30, 2025, the Adviser manages assets of approximately \$28.4 billion and serves as the investment adviser for other investment companies, as well as institutional, sub-advised and private fund accounts. The Adviser is headquartered at 2101 E. El Segundo Blvd., Suite 301, El Segundo, California 90245.

As compensation for the management and advisory services furnished to the Fund, the Adviser will be paid an annual advisory fee of 0.75% of the Fund's average daily net assets up to \$50 million and 0.65% of the Fund's average daily net assets in excess of \$50 million. For the fiscal year ended May 31, 2025, FPA received advisory fees of 0.66% of the Fund's average daily net assets.

Sub-Adviser

Bragg Financial Advisors, Inc. ("BFA"), a registered investment adviser located at 1031 South Caldwell Street, Suite 200, Charlotte, NC 28203, serves as the Fund's sub-adviser. BFA provides investment management and supervision to individuals and institutions. As of June 30, 2025, BFA manages approximately \$4.1 billion on a discretionary basis. For its sub-advisory investment services, the Sub-adviser receives a sub-advisory fee from FPA, computed quarterly and paid monthly, at a rate of approximately 0.36% of the Fund's average daily net assets.

A discussion regarding the basis for the Board's approval of the Investment Advisory Agreement and Sub-Advisory Agreement is available in the Fund's Form N-CSR for the fiscal year ended May 31, 2025.

Portfolio Manager

Steve Scruggs, CFA has been employed by BFA since January 2000. Mr. Scruggs is Senior Portfolio Manager of BFA. Mr. Scruggs holds a Bachelor's Degree from North Carolina State University and an MBA from Wake Forest University. He is a CFA charter holder and member of the CFA Institute.

The Fund's Statement of Additional Information contains additional information regarding Mr. Scruggs' compensation, other accounts managed by Mr. Scruggs, and Mr. Scruggs' ownership of securities in the Fund.

ReFlow Liquidity Program

The Fund may participate in the ReFlow liquidity program, which is designed to provide an alternative liquidity source for mutual funds experiencing net redemptions of their shares. Pursuant to the program, ReFlow Fund, LLC ("ReFlow") provides participating mutual funds with a source of cash to meet net shareholder redemptions by standing ready each business day to purchase fund shares up to the value of the net shares redeemed by other shareholders that are to settle the next business day. Following purchases of fund shares, ReFlow then generally redeems those shares when the fund experiences net sales, at the end of a maximum holding period determined by ReFlow (currently 8 days) or at other times at ReFlow's discretion. While ReFlow holds fund shares, it will have the same rights and privileges with respect to those shares as any other shareholder.

For use of the ReFlow service, a fund pays a fee to ReFlow each time it purchases fund shares, calculated by applying to the purchase amount a fee rate determined through an automated daily auction among participating mutual funds. The current minimum fee rate is 0.14% of the value of the fund shares purchased by ReFlow, although the fund may submit a bid at a higher fee rate if it determines that doing so is in the best interest of fund shareholders. This fee is allocated among a

fund's share classes based on relative net assets. ReFlow's purchases of fund shares through the liquidity program are made on an investment-blind basis without regard to the fund's objective, policies, or anticipated performance. In accordance with federal securities laws, ReFlow is prohibited from acquiring more than 3% of the outstanding voting securities of a fund. ReFlow will purchase Institutional Class shares of the Fund at net asset value and will not be subject to any investment minimum applicable to such shares. ReFlow will periodically redeem its entire share position in the Fund and request that such redemption be met in kind in accordance with the Fund's redemption in-kind policies described under "Other Shareholder Services" below. The Fund will not recognize gain or loss for U.S. federal income tax purposes on in-kind redemptions with ReFlow. The Fund's Board of Trustees has approved the Fund's use of the ReFlow program.

The Adviser believes that the program may assist in stabilizing the Fund's net assets, to the benefit of the Fund and its shareholders, although there is no guarantee that the program will do so. To the extent the Fund's net assets do not decline, the Adviser may also benefit.

INVESTING WITH THE FUND

Purchase and Investment Minimums

The minimum initial investment in Investor Class, Advisor Class, and Institutional Class shares is \$1,500, \$1,500, and \$100,000, respectively, for regular accounts. Each subsequent investment must be at least \$100. However, as described herein, the Fund has established different initial investment and subsequent investment minimums for retirement accounts and accounts established with a pre-authorized investment plan. The Fund reserves the right to waive or lower purchase and investment minimums in certain circumstances. For example, the minimums listed above may be waived or lowered for investors who are Trustees or officers of the Fund, employees of the Adviser and/or customers of certain financial intermediaries that hold the Fund's shares in certain omnibus accounts, at the discretion of the officers of the Fund. In addition, financial intermediaries may impose their own minimum investment and subsequent purchase amounts.

Share Price

Net Asset Value. The Fund calculates its share price, also called net asset value, as of the close of trading on the New York Stock Exchange ("NYSE"), every day the NYSE is open, normally 4:00 p.m. Eastern time. The NYSE is closed not only on weekends but also on customary holidays, which currently are New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Non-U.S. securities owned by the Fund may trade on weekends or other days when the Fund does not price its shares. As a result, the Fund's net asset value may change on days when you will not be able to purchase or redeem the Fund's shares. The share price is rounded to the nearest cent per share and equals the market value of all portfolio securities plus other assets, less all liabilities, divided by the number of Fund shares outstanding. Orders received by dealers before the NYSE closes on any business day are priced based on the share price for that day, as described in greater detail below. Orders received by UMB Fund Services, Inc. at the Fund's P.O. Box address are priced based upon the Fund's share price at the close of trading on the day received at the P.O. Box.

The value of an instrument is either the market value, if quotes are readily available (defined below), or the fair value as determined in good faith by the Board, or its designee. The Board has designated the Adviser as valuation designee (the “Valuation Designee”) to perform the fair value determinations relating to all Fund investments pursuant to the valuation procedures of the Fund and the Valuation Designee (the “Valuation Procedures”). Pursuant to Rule 2a-5 under the 1940 Act, a market quotation is readily available only when that quotation is a quoted price (unadjusted) in active markets for identical investments that the Fund can access at the measurement date, provided that a quotation will not be readily available if it is not reliable. As a result, any security valued using inputs other than Level 1 inputs under U.S. GAAP (unless an SEC staff no-action position is available providing an exception from the readily available market quotation requirement) is deemed to be a fair value.

The Valuation Designee uses various methods and inputs to establish the value of its investments, other assets, and liabilities. Use of particular methods and inputs may vary over time based on availability and relevance as market and economic conditions evolve. Equity securities are generally valued each day at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are principally traded, as of the close of business on that day. If there have been no sales that day, or if an equity security is unlisted, such equity securities are generally valued at the last available bid price. Fixed income securities are valued at the last reported sales price, if available and if the security is actively traded. Most fixed income securities are generally valued at prices obtained from pricing vendors. If no such vendor prices are available, such fixed income securities are valued using at least three broker quotes (or two broker quotes if three are not available). Vendors value fixed income securities based on one or more of the following inputs: transactions, bids, offers, quotations from dealers and trading systems, spreads and other relationships observed in the markets among comparable securities, benchmarks, underlying equity of the issuer, and proprietary pricing models such as cash flows, financial or collateral performance and other reference data (includes prepayments, defaults, collateral, credit enhancements, and interest rate volatility). Fixed-income and convertible securities listed on a national securities exchange for which the over-the-counter market more accurately reflects the securities’ value in the judgment of the Fund’s officers, are valued at the most recent bid price. Currency forwards are valued at the closing currency exchange rate which is typically not materially different from the forward rate. Short-term corporate notes with maturities of 60 days or less are valued at amortized cost.

The Valuation Designee will assess the availability of market quotations each day and may determine that a market quotation for a security is not available (such as when the market for a security is closed) or is unreliable (such as when transactions in a security are infrequent, the validity of quotations appears questionable, there is a thin market, or the size of the reported trades is not considered representative of the Fund’s holdings). If such a determination is made, the Valuation Designee will fair value the security in accordance with the Valuation Procedures or override the security’s price. For example, if trading in a security has been halted, suspended or otherwise materially restricted; a security has been de-listed from a national exchange; a security has not been traded for an extended period of time; there is other data that may call into question the reliability of market quotations; or if events occur between the close of markets outside the United States and the close of regular trading on the NYSE that, in the opinion of the Valuation Designee, materially affect the value of any of the Fund’s securities that trade principally in those international markets,

those securities will be valued in accordance with the Valuation Procedures. Various inputs may be reviewed in order to determine a fair valuation of a security. These inputs include, but are not limited to: fundamental analytical data relating to the investment, including the Valuation Designee's analysis of the fundamental position of the issuer; the most recent closing market prices, including "after hours" trading; the type of security or asset; financial statements of the issuer; the cost of the security or asset at the date of purchase; the size of the holding; information as to any transactions or offers with respect to the security; price and extent of public trading in similar securities of the issuer or comparable companies; related corporate actions; significant events occurring after the close of trading in the security; changes in overall market conditions, including interest rates; reports prepared by internal or external analysts, third party pricing consultants and/or industry experts; values of baskets of securities traded on other markets, exchanges or among dealers; and other factors that the Valuation Designee reasonably believes to be relevant under the circumstances. Fair valuations and valuations of investments that are not actively trading involve judgment and may differ materially from valuations of investments that would have been used had greater market activity occurred. Use of the Valuation Procedures is intended to result in more appropriate net asset values.

Additional fair value procedures are followed to address issues related to Fund holdings outside the United States. Non-U.S. securities held by the Fund trade in markets that open and close at different times, reflecting time zone differences. If significant events occur after the close of a market (and before the Fund's net asset value is next determined) which affect the value of these portfolio securities, appropriate adjustments from closing market prices may be made to reflect these events. Events of this type could include, for example, significant price changes in other markets. The Valuation Designee may utilize an independent fair valuation service in adjusting the valuations of non-U.S. securities. In addition, such use is intended to reduce potential arbitrage opportunities otherwise available to short-term investors.

Orders received by authorized dealers, certain retirement plans and certain other financial intermediaries before the NYSE closes, if communicated to UMB Fund Services, Inc. by later deadlines on the following business day, are priced at the share price for the prior business day. The share price for sales (redemptions) of Fund shares is the first share price determined after UMB Fund Services, Inc. receives a properly completed request, except that sale orders received by an authorized dealer, certain retirement plans and certain other financial intermediaries before the NYSE closes are priced at the closing price for that day if communicated to UMB Fund Services, Inc. within the times specified by the Fund. No other action is required by the shareholder who places an order with a financial intermediary.

HOW TO BUY FUND SHARES

Investors may purchase shares on any business day by written request, check, wire, ACH (Automated Clearing House), telephone, or through dealers as further described in this prospectus. You may conduct transactions by mail (FPA Funds, c/o UMB Fund Services, Inc., P.O. Box 2175, Milwaukee, Wisconsin 53201-2175, or 235 West Galena Street, Milwaukee, Wisconsin 53212), by wire, or by telephone at (800) 638-3060. Purchases and redemptions by telephone are only permitted if you previously established this option in your account. You can use the Account Application for initial purchases.

Investors can purchase shares by contacting any investment dealer authorized to sell the Fund's shares. The minimum initial investment in Investor Class, Advisor Class, and Institutional Class shares is \$1,500, \$1,500, and \$100,000, respectively, and each subsequent investment must be at least \$100. However, as described herein, the Fund has established different initial investment and subsequent investment minimums for retirement accounts and accounts established with a pre-authorized investment plan. All purchases made by check should be in U.S. dollars and made payable to the FPA Funds. Third party, starter or counter checks will not be accepted. A charge may be imposed if a check does not clear. The Fund reserves the right to waive or lower purchase and investment minimums in certain circumstances. For example, the minimums listed above may be waived or lowered for investors who are Trustees or officers of the Fund, employees of the Adviser and/or customers of certain financial intermediaries that hold the Fund's shares in certain omnibus accounts, at the discretion of the officers of the Fund. In addition, financial intermediaries may impose their own minimum investment and subsequent purchase amounts.

Subsequent investments can be made directly to UMB Fund Services, Inc.

Federal regulations may require the Fund to obtain your name, your date of birth (for a natural person), your residential street address or principal place of business and your Social Security Number, Employer Identification Number or other government issued identification when you open an account. Additional information may be required in certain circumstances or to open accounts for corporations or other entities, and certain information regarding beneficial ownership will be verified, including information about beneficial owners of such entities. The Fund may use this information to attempt to verify your identity and, for legal entities, the identity of beneficial owners. The Fund may not be able to establish an account if the necessary information is not received. The Fund may also place limits on account transactions while it is in the process of attempting to verify your identity and, for legal entities, the identity of beneficial owners. Additionally, if the Fund is unable to verify the identity of you or your beneficial owners after your account is established, the Fund, the Fund's distributor, and the Fund's transfer agent each reserve the right to reject further purchase orders from you or to take such other action as they deem reasonable or required by law, including closing your account. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated on the date your account is closed, and you bear the risk of loss.

HOW TO REDEEM FUND SHARES

Redeeming (Selling) Your Shares—Redemption Payments May Be Made By Check, Wire or ACH. You can redeem (sell) for cash without charge any or all of your shares at any time by sending a written request to UMB Fund Services, Inc. Faxes are not acceptable. You can also place redemption requests through dealers, but they may charge a fee. If you are selling shares from a retirement plan, you should consult the plan documentation concerning federal tax consequences and consult your plan custodian about applicable procedures for selling shares.

The amount of time for a redeeming shareholder to receive redemption proceeds will vary based on the method of payment elected (*i.e.*, ACH, wire, check). Redemption proceeds by check will generally be mailed to you within three to seven business days after UMB Fund Services, Inc., receives a properly completed redemption request; and redemption proceeds by ACH or wire will

generally be sent to you within one to three business days after UMB Fund Services, Inc., receives a properly completed redemption request (as described below under “Written Requests” and “Telephone Transactions”). Generally, your redemption request cannot be processed on days the NYSE is closed. If you purchase shares by check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 days while the Fund waits for the check to clear.

Redemption proceeds are normally paid in cash; however, subject to the limits described below in “In-Kind Transactions,” the Fund reserves the right to make payment for redeemed shares wholly or in part by giving the redeeming shareholder portfolio securities. For cash redemptions, under normal market conditions, the Fund typically expects to meet such redemption requests by using holdings of cash or cash equivalents and/or proceeds from the sale of portfolio securities. In addition, for temporary or emergency purposes, the Fund may borrow to meet redemption requests.

The right of redemption can be suspended and the payment therefore may be postponed for more than seven days during any period when: (a) the NYSE is closed for other than customary weekends or holidays; (b) trading on the NYSE is restricted; (c) an emergency exists as a result of which disposal by the Fund of securities it owns is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets; or (d) the Securities and Exchange Commission, by order, so permits.

The Fund’s transfer agent, consistent with relevant regulatory guidance or court rulings, may place a temporary hold on the payment of redemption proceeds from an account if the transfer agent reasonably believes that financial exploitation of a Specified Adult (as defined below) has occurred, is occurring, has been attempted, or will be attempted. For purposes of this paragraph, the term “Specified Adult” refers to an individual who is (A) a natural person age 65 and older, or (B) a natural person age 18 and older who is reasonably believed to have a mental or physical impairment that renders the individual unable to protect their own interests.

Written Requests. Requests must be signed by the registered shareholder(s). A signature guarantee is required if the redemption is made payable to someone other than the registered shareholder, being sent to somewhere other than the registered address or being sent to the address of record if that address of record has been changed within the past 30 days.

A signature guarantee must be a Stamp 2000 Medallion Signature Guarantee and can be obtained from a bank or trust company; a broker or dealer; a credit union; a national securities exchange, registered securities association or clearing agency; or a savings and loan association. Additional documents such as articles of incorporation, business licenses, partnership agreements or trust documents may be required for sales by corporations, partnerships, trusts, fiduciaries, executors, or administrators.

Telephone Transactions. You must elect the option on the Account Application to have the right to sell your shares by telephone. If you wish to make an election to have the right to sell your shares via telephone or to change such an election after opening an account, you will need to complete an Account Privileges Change Form with a signature guarantee. Sales via telephone are not available for shares in certificate form.

If you have elected the option to sell your shares by telephone, you may direct that a check for the proceeds payable to the shareholder of record be mailed to the address of record or you may designate a bank account to receive the proceeds of such redemptions. There is a \$3.50 charge per wire. No telephone redemptions to the address of record will be processed within 30 days of a change in the address of record.

UMB Fund Services, Inc. uses procedures it considers reasonable to confirm redemption instructions via telephone, including requiring account registration verification from the caller and recording telephone instructions. Neither UMB Fund Services, Inc. nor the Fund is liable for losses due to unauthorized or fraudulent instructions if there is a reasonable belief in the authenticity of received instructions and reasonable procedures are employed. During periods of significant economic or market changes, it may be difficult to sell your shares by telephone.

The Fund can change or discontinue telephone redemption privileges without notice.

Automatic Redemption (Sale) of Your Shares. If as a result of a redemption, your account value falls below \$500, the Fund can direct UMB Fund Services, Inc. to redeem your remaining Fund shares. In such case, you will be notified in writing that your account value is insufficient and be given up to 60 days to increase it to \$500.

Escheatment. If your account is deemed “abandoned” or “unclaimed” under state law, the Fund may be required to “escheat” or transfer the assets in your account to the applicable state’s unclaimed property administration. The state may sell escheated Fund shares and, if you subsequently seek to reclaim your proceeds of liquidation from the state, you may only be able to recover the amount received when the shares were sold. Escheatment rules vary considerably by state. Please check your state’s unclaimed or abandoned property department website for specific information. It is your responsibility to ensure that you maintain a correct address for your account, keep your account active, and promptly cash all checks for dividends, capital gains and redemptions. Neither the Fund, the Fund’s transfer agent, the Fund’s distributor nor the Adviser or its affiliates will be liable to shareholders or their representatives for good faith compliance with state escheatment laws. Escheatment of an IRA account will be subject to 10% federal withholding tax and treated as a taxable distribution to you.

Excessive Trading and Market Timing. The Fund is not intended as a vehicle for frequent trading and/or market timing in an attempt to profit from short-term fluctuations in the securities markets and does not accommodate frequent trading. The Board has adopted policies and procedures designed to deter or prevent frequent purchases and redemptions. Such trading could interfere with the efficient management of the Fund’s portfolio, increase brokerage and administrative costs, and dilute the value of Fund shares held by long-term investors. In addition, exchanges between this Fund and the other FPA Funds are limited to no more than four exchanges during any calendar year (see the section titled “How to Exchange Your Shares”). Irrespective of these exchange limits, the Fund reserves the right to reject any purchase request (including in connection with an exchange) if management determines in its discretion that the request may be part of a pattern of excessive trading that could adversely affect the Fund. Notifications will be made in writing by the Fund within five days. There can be no assurance that the Fund will successfully detect or prevent market timing.

HOW TO EXCHANGE YOUR SHARES

You can add to an existing FPA Fund account or start a new FPA Fund account by exchanging your shares of the Fund for shares of other FPA Funds, namely FPA Crescent Fund, FPA Flexible Fixed Income Fund, FPA New Income Fund, and FPA Queens Road Value Fund, which are offered in separate prospectuses.

The Fund can change or discontinue the right to exchange Fund shares into the FPA Crescent Fund, FPA Flexible Fixed Income Fund, FPA New Income Fund, and FPA Queens Road Value Fund upon 60 days' notice to shareholders.

You can exercise your exchange privileges either by written instructions or telephone (telephone exchange privileges are available unless you specifically decline them on the Account Application).

Exchanges and purchases are effected at the share price next determined after receipt of a proper request (as described above under "Written Requests") by UMB Fund Services, Inc.

For federal income tax purposes, an exchange is treated as a sale of Fund shares and could result in a capital gain or loss.

Exchanges are subject to the following restrictions:

- You are limited to four exchanges in one account during any calendar year;
- Shares must be owned 15 days before exchanging, and cannot be in certificate form unless you deliver the certificate when you request the exchange;
- An exchange is subject to the same initial investment minimums required for each particular FPA Fund and, at a minimum, requires the purchase of shares with a value of at least \$1,000; and
- Exchanges are subject to the same signature and signature guarantee requirements applicable to the redemption of shares.

For more information or for prospectuses for other FPA Funds, please visit <https://fpa.com/funds> or contact a dealer or Distribution Services, LLC. You should read the prospectuses of these other funds and consider differences in objectives and policies before making any exchange.

Converting Shares

If an account no longer meets the eligibility requirements for investing in Institutional or Advisor Class shares, as set forth in the section titled "Investing with the Fund—Purchase and Investment Minimums," the Fund may, in its discretion, automatically convert the shares in the account to Advisor or Investor Class shares. The Fund will provide written notice before any such automatic share class conversion occurs.

A conversion between share classes of the Fund is generally expected to be a nontaxable event.

If you convert from one class of shares to another, the transaction will be based on the respective NAVs of the two classes on the trade date for the conversion. Consequently, a conversion may provide you with fewer shares or more shares than you originally owned, depending on that day's NAV. At the time of conversion, the total dollar value of your "old" shares will equal the total dollar value of your "new" shares. However, subsequent share price fluctuations may decrease or increase the total dollar value of your "new" shares compared with that of your "old" shares.

OTHER SHAREHOLDER SERVICES

Investment Account. Each shareholder has an investment account in which UMB Fund Services, Inc. holds shares. You will receive a statement showing account activity after each transaction. Stock certificates will not be issued.

In-Kind Transactions. Subject to procedures adopted by the Fund's Board and at the Fund's sole discretion, you may pay for shares of the Fund with securities instead of cash.

The Fund has agreed to redeem shares, with respect to any one shareholder of record during any 90-day period, solely in cash up to the lesser of \$250,000 or 1% of the net asset value of the Fund at the beginning of the period. Pursuant to procedures adopted by the Fund's Board, the Fund reserves the right in its sole discretion to honor any redemption request in excess of the foregoing limits by making payment in whole or in part in readily marketable securities chosen by the Fund and valued as such securities are valued for purposes of computing the Fund's net asset value. The Fund may also use redemptions in-kind for certain Fund shares redeemed by ReFlow. If payment is made in securities, a shareholder may incur transaction expenses in converting those securities to cash, may realize, upon receipt, a gain or loss for tax purposes, and will be exposed to market risk prior to and upon the sale of such securities or other property.

Pre-authorized Investment Plan. You may establish an account with a \$2,500 minimum initial investment for the Institutional Class, and \$100 for the Advisor and Investor Classes, and the establishment of automatic monthly investments of at least \$100 and the expressed intention to increase the investment to \$100,000 for the Institutional Class and \$1,500 for the Advisor and Investor Classes within 18 months. To make automatic monthly investments, you must complete the Account Application available from dealers or Distribution Services, LLC. UMB Fund Services, Inc. will withdraw funds from your bank account monthly for \$100 or more as specified through the Automated Clearing House.

Retirement Plans. A retirement plan account and/or an IRA can purchase shares by contacting any investment dealer authorized to sell the Fund's shares. Investments can be made directly to UMB Fund Services, Inc., and no minimum investment amount is imposed for investments in retirement plans. UMB Fund Services, Inc. currently charges an annual account maintenance fee of \$15 on retirement accounts. All purchases made by check should be in U.S. dollars and made payable to the FPA Funds. Third party, starter or counter checks will not be accepted. A charge may be imposed if a check does not clear. Please note that financial intermediaries may impose their own minimum investment and subsequent purchase amounts.

You should consult your tax adviser about the implications of investing in Fund shares through a retirement account. Persons with earned income ineligible for deductible contributions generally may make non-deductible contributions to an IRA. The earnings on shares held in an IRA are generally tax-deferred. In addition, although contributions to a Roth IRA are not deductible, earnings in the account generally are not taxed even on withdrawal. Retirement-related tax matters are complicated and you should consult your tax adviser about them. Distribution Services, LLC and dealers have applicable forms and information regarding plan administration, custodial fees, and other plan documents.

Systematic Withdrawal Plan. If you have an account with a value of \$10,000 or more, you can make monthly, quarterly, semi-annual, or annual withdrawals of \$50 or more by electing this option on the Account Privileges Change Form. Under this arrangement, sufficient Fund shares will be sold to cover the withdrawals and the proceeds will be forwarded to you as directed on the Account Privileges Change Form. If withdrawals continually exceed reinvestments, your account will be reduced and ultimately exhausted. Please note that concurrent withdrawals and purchases are ordinarily not in your best interest and you will generally recognize any taxable gains or losses on the withdrawals.

Shareholder Servicing Arrangements and Shareholder Service Fees. Brokers, dealers, banks, trust companies and other financial representatives (each, a “Service Organization”) may receive compensation from the Fund or its service providers for providing a variety of services. This section briefly describes how Service Organizations may be compensated.

For providing certain services to their clients, a Service Organization may be paid a fee based on the assets or number of accounts of the Fund that are attributable to the Service Organization. These non-distribution administrative and support services may include establishing and maintaining accounts and records relating to shareholders, processing dividend and distribution payments from the Fund on behalf of shareholders, forwarding communications from the Fund, providing sub-accounting with respect to Fund shares, and other similar services. In addition, your Service Organization may charge you other account fees for buying or redeeming shares of the Fund or for servicing your account. Your Service Organization should provide you with a schedule of its fees and services.

Pursuant to the Shareholder Service Plan adopted by the Board, on behalf of the Fund, the Fund may pay a fee at an annual rate of up to 0.10%, 0.15%, and 0.25% of its average daily net assets attributable to Institutional Class, Advisor Class, and Investor Class shares of the Fund, respectively, to Service Organizations. The Fund does not pay these service fees on shares purchased directly. In addition, the Adviser may, at its own expense, pay financial representatives and/or shareholder servicing agents for these services.

Distribution Services, LLC, the Fund’s principal underwriter, may enter into agreements with selling dealers where the selling dealer waives its right to shareholder servicing fees for selling Fund shares or servicing shareholder accounts. These arrangements typically are intended to avoid duplicate payment of fees where the selling dealer’s transactions are through an omnibus account with a different clearing broker and that broker is entitled to receive shareholder servicing fees from the Fund.

The Adviser may, at its own expense and out of its own resources, pay financial representatives for distribution and marketing services performed with respect to the Fund. These payments by the Adviser may include one or more of the following types of payments: one-time account establishment fees, annual per-account fees and/or annual asset-based charges. These payments may create a conflict of interest by influencing the broker or financial intermediary and your salesperson to recommend the Fund over another investment. For more information, ask your salesperson or visit your financial intermediary's website.

DISTRIBUTIONS AND TAXES

Distributions

The Fund earns income from its investments and distributes that income, if and to the extent it exceeds expenses, to its shareholders as dividends. The Fund also realizes capital gains and losses from the sale or exchange of its investments and distributes any net capital gains to its shareholders as capital gain distributions (as used in this section, together with income dividends, "distributions"). The Fund distributes any distributions at least annually.

Distributions the Fund pays may be reinvested automatically in Fund shares at net asset value or taken in cash. If your account is held directly with the Fund and you would like to receive distributions in cash, contact UMB Fund Services, Inc. at the address and phone number located on the back cover page of this Prospectus. If your account is with a securities dealer or other financial intermediary that has an agreement with the Fund, contact your dealer or intermediary about which option you prefer.

Taxes

Except for tax-advantaged retirement plans and accounts and other tax-exempt investors, all Fund distributions you receive generally are subject to federal income tax, whether you receive them in cash or reinvest them in additional shares. Fund distributions to IRAs (including Roth IRAs) and qualified retirement plans generally are tax-free, but may be taxable upon later distribution from such accounts.

Distributions of net investment income, the excess of net short-term capital gain over net long-term capital loss, and net gains (if any) from certain non-U.S. currency transactions (*i.e.*, "dividends") are generally taxed as ordinary income. The Fund's dividends attributable to "qualified dividend income" (generally, dividends it receives on stock of most U.S. and certain non-U.S. corporations with respect to which the Fund satisfies certain holding period and other restrictions) are subject to federal income tax for individual and certain other non-corporate shareholders (each, an "individual shareholder") who satisfy those restrictions with respect to their Fund shares at the rates for long-term capital gains—a maximum of 15% or 20%, depending on whether the individual shareholder's income exceeds certain threshold amounts.

Distributions of net capital gain (*i.e.*, the excess of net long-term capital gain over net short-term capital loss) are generally taxed as long-term capital gain and, for individual shareholders, are subject to the 15% or 20% maximum federal income tax rates mentioned above. The tax treatment

of capital gain distributions from the Fund depends on how long the Fund held the securities it sold that generated the gain, not when you bought your Fund shares or whether you reinvested your distributions.

Fund distributions generally are taxable to you in the year you receive them. In some cases, however, distributions you receive in January are taxable as if they had been paid the previous December 31.

When you sell (redeem) shares, including pursuant to an exchange, you generally will realize a taxable gain or loss. An exception, once again, applies to tax-advantaged retirement plans and accounts and other tax-exempt investors. Any capital gain that an individual shareholder recognizes on a redemption of their shares that have been held for more than one year will qualify for the 15% or 20% maximum federal income tax rates mentioned above.

The federal income tax you actually owe on distributions and share transactions can vary with many factors, such as your marginal tax bracket, how long you held your shares and whether you owe federal alternative minimum tax. Shortly after the end of each calendar year, the Fund will send you a tax statement that will detail the distributions you received during that year and will show their tax status. This may be separate from the statement that covers your share transactions. Most importantly, consult your tax professional. Everyone's tax situation is different, and your tax professional should be able to help you answer any questions you may have.

The Fund is required to withhold 24% of the money you are otherwise entitled to receive from its distributions and redemption proceeds (regardless of whether you realize a gain or loss) if you are an individual shareholder who fails to provide a correct taxpayer identification number to the Fund (together with the withholding described in the next sentence, "backup withholding"). Withholding at that rate also is required from the Fund's distributions to which you are otherwise entitled if you are such a shareholder and the Internal Revenue Service ("Service") tells the Fund that you are subject to backup withholding or you are subject to backup withholding for any other reason. Backup withholding is not an additional tax, and any amounts so withheld may be credited against a shareholder's federal income tax liability or refunded.

If you buy shares when the Fund has earned or realized, but not yet distributed, ordinary income or net capital gains, you will be "buying a dividend" by paying the full price of the shares and then receiving a portion of the price back in the form of a taxable distribution. You can avoid this situation by waiting to invest until after the record date for the distribution.

Distributions are taxable to you even if they are paid from income or gain earned by the Fund before your investment (and thus were included in the price you paid for your Fund shares).

The amounts of the Fund's distributions are driven by federal tax requirements. The Fund's required taxable distributions to shareholders may be significant even if the Fund's overall performance for the period is negative.

Generally, if you are investing in the Fund through a tax-advantaged retirement plan or account, distributions paid by the Fund are not taxable to you on a current basis (but may be taxable upon withdrawal from such plan or account).

An individual is required to pay a 3.8% tax on the lesser of (1) the individual's "net investment income," which generally includes distributions the Fund pays and net gains realized on the redemption or exchange of Fund shares, or (2) the excess of the individual's "modified adjusted gross income" over a threshold amount (\$250,000 for married persons filing jointly and \$200,000 for single taxpayers). This tax is in addition to any other taxes due on that income. A similar tax applies to estates and trusts. Shareholders should consult their own tax advisers regarding the effect, if any, this provision may have on their investment in Fund shares.

A Fund shareholder's basis in shares acquired after December 31, 2011 ("Covered Shares"), will be determined in accordance with the Fund's default method, which is HIFL (highest in, first long-term) basis, unless the shareholder affirmatively elects in writing (which may be electronic) to use the average basis method or a different acceptable basis determination method (*e.g.*, a specific identification method). The method a Fund shareholder elects (or the default method) may not be changed with respect to a redemption of Covered Shares after the settlement date of the redemption.

In addition to the requirement to report the gross proceeds from the redemption of shares, the Fund (or its administrative agent) must report to the Service and furnish to its shareholders the basis information for Covered Shares and indicate whether they had a short-term (one year or less) or long-term (more than one year) holding period. Fund shareholders should consult with their tax advisers to determine the best Service-accepted basis method for their tax situation and to obtain more information about how the basis reporting law applies to them.

Shareholders other than U.S. persons may be subject to a different U.S. federal income tax treatment, including withholding tax at the rate of 30% on amounts treated as ordinary dividends from the Fund, as discussed in more detail in the SAI.

This section summarizes some of the consequences under current federal income tax law of an investment in the Fund. It is not a substitute for personal tax advice. **Consult your tax adviser about the potential tax consequences of an investment in the Fund under all applicable tax laws.**

FINANCIAL HIGHLIGHTS

The Fund's Financial Highlights for the fiscal year ended May 31, 2025, are incorporated in this Prospectus by reference to the Fund's Annual Financials and Other Information, which are included as part of the Fund's most recent Form N-CSR filing, which can be located on the SEC's website and is available upon request (see back cover).

Investment Adviser

FUND INFORMATION

Annual/Semi-Annual Report to Shareholders and Financials and Other Information

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders and the Fund's Form N-CSR filings. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year. In Form N-CSR, you will find the Fund's annual and semi-annual financial statements.

Statement of Additional Information (SAI)

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. The SAI is on file with the SEC and is incorporated into this prospectus by reference. This means that the SAI is legally considered a part of this prospectus even though it is not physically within this prospectus.

Shareholder reports and other information about the Fund (including the SAI) are available without charge, upon request, by calling Distribution Services, LLC and on the Fund's website <https://fpa.com/request-funds-literature>. Reports and other information about the Fund are also available on the EDGAR database on the Securities and Exchange Commission's ("SEC") Web Site at <https://www.sec.gov>, and copies of this information may be obtained, upon payment of a duplicating fee, by electronic request at publicinfo@sec.gov.

For more information, to request a free copy of any of the documents above or to discuss any questions about the Fund you may contact Distribution Services, LLC at 190 Middle Street, Suite 301, Portland, Maine 04101, or (800) 638-3060, or go to <https://fpa.com/funds>.
